

## Wall Switch Installation

Always use a qualified electrician for electric installation.

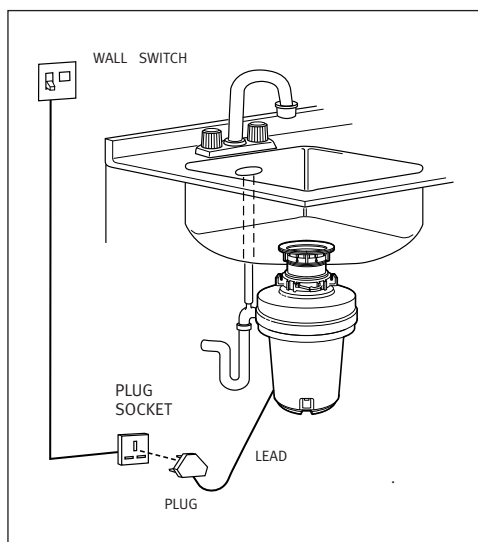

**WARNING: THIS APPLIANCE MUST BE GROUNDED**

This disposer should be connected to electric supply with required parameter.

Wall Switch should be situated conveniently above the work surface,  
at least a metre away from splashes and out of a reach a children

Check the Wall Switch to "OFF" position before insert the plug into socket

To help prevent accidentally leaving the disposer running,  
the switch with indicator lamp is good advised
